In the name of of Allah most Gracious most Merciful.

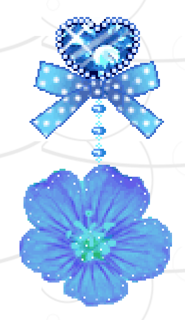

The answer to the suspicion about (Isra and Mira'aj)claiming that it is contradicted with the mind

–**1The night journey "Isra' and Mi'rãj"** or "going and ascension" is one of the miracles with which Allah the AllMighty supported His Prophet Mohammad . The definition of (a miracle) is: a supernatural proof (Sensory or mentally), no man can bring like because it is from God whose Attributes are perfect, and it is a supernatural sign and evidence with which God supports His prophets and messengers.

–**2The Great Creator of Heavens** and the earth easily transported His messenger from the Sacred Mosque of Mecca to the Farthest Mosque in Jerusalem and then the Prophet was taken up through the seven Heavens ,even to the Sublime Throne in one night. God is the Exalted in Might and Knowledge.

–**3A miracle can't be** measured by the mind, the mind can perceive physical evidences, however, it can't act when miracles are shown.

–**4All** prophets and messengers were supported with miracles:
~Adam PBUH had no parents.
~Jesus PBUH had no father, he spoke while he was an infant and he healed the blind
~and our prophet Mohammed PBUH had many miracles, and the night journey of Isra' and Mira'aj is one of his greatest miracles.

–**5Who** claims that the mind confutes and negates miracles, we see him believe in many other things. He believes in the speed of light, but he's never measured it, he believes in neutrons, butt he's never actually seen them, he even takes the medicine from the doctor and he doesn't know him.Yet, he doesn't believe in a thing called a miracle.

–6 **Einstein** said and I quote "the time is measured by light, so, if it precedes the speed of light the time will disappear", so, the night journey was faster than the light, so Mohammed PBUH was taken and ascended at the same night, because God is All_Knowing and All_Mighty.He can do whatever He wants.

–7 **Lastly**,This claim that the mind confutes and negates miracles makes disbelievers and atheists refuse the divine revelation, so, they don't believe in them and at the same time they keep arguing against the true promise of God.

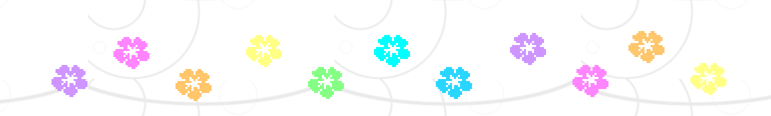

The Scientific explanation for the night journey of " Israa and Mi'rãj"

The Palestinian researcher (Azzam Al-Muslimi) confirmed the theory for Israa and Miraj scientifically through his theory called (The new relativity) which is based on some contradictions in Physics, between Quantum theory and Einstein's theory of relativity. Where he discovered that you can measure

the speed of the physical objects with the speed of light.

He developed Einstein's theory of relativity and Physics Quantum theory saying: If we conducted a quantitative tunnel emptiness that links between 2 cities (e.g. New York and London) and we inserted an airplane to fly from London to New York, well, it's supposed to take few hours to arrive that destination. But, if it enters that quantified hollow tunnel, then the arrival time will be Zero. This means that this plane landed in New York at the exact second in which it was launched in London, and this is what the Universe looks like, it is a Quantitative vacuum.

A second proof is a missile, if launched within the airspace ,its speed will be unbelievable and it will reach its destination in few minutes. So, what if this missile is launched in a quantitative vacuum in the upper air-layers? It will arrive in very few moments.

As for the third proof, if there was a creature stronger than a human being, not belonging to the human race, this creature can move faster than the speed of light. And therefore, long distances will vanish and the time will disappear during his passing to these distances. (The speed of light is not everything. So, there is what is faster than it.(

And based on the proofs mentioned above, it is possible to go up through space , from earth to the heavens. But the question is: did the body of the prophet Mohammed (PBUH) turned from essence to energy?

There are some hypotheses that say if his body was turned into energy it would be normal, but we say that even if his body was not turned to energy and stayed as it is ,then the Buraq carried the Prophet to the Heavens .

So I want to ask Christians who have doubts about this speech because they do admit that Jesus PBUH has ascended to the heavens, how did that happen?

The same miracle by which the Christ was raised from earth to heavens was given to the Prophet Mohammad (PBUH) in his night journey of Isra' and Mi'rãj.

Praise be to Allah that His grace is righteous.
